

Charting Diversity

Draw slip of paper from each bag and record the information in the proper square below. You and your partner should brainstorm and write the name of an animal that has the three characteristics you have described. Challenge the other teams in your group to name another animal that has the three characteristics. Give yourself a point for each team you stump. You can only challenge teams if you have named an animal for the characteristics.

WHERE IT LIVES	HOW IT MOVES	WHAT IT WEARS	NAME OF ANIMAL
